

Unlock the Power of Data, Analytics and Business Intelligence

New 2024 Offerings

PowerBI Embedded in MyGeotab

Get custom, interactive PowerBI dashboards embedded directly into your MyGeotab platform. No prior PowerBI license or expertise is necessary - Assured Telematics takes care of all the setup for you. By consolidating your Geotab data, we transform insights into actionable decisions using the world's most popular and powerful Business Intelligence (BI) tool.

Empowering Every Data Team

Redefine how your company accesses, manages, and utilizes its data by creating your very own Geotab datamart. We take care of all the heavy lifting – from data extraction to transformation using cutting-edge data engineering practices and storage. Our experts further refine the data into a dimensional model, providing the quickest and simplest means to connect, combine, and comprehend your data.

The models powering Assured Telematics' Power BI embedded solution are directly accessible, ensuring metric consistency across various Business Intelligence tools, including but not limited to Tableau, PowerBI, Looker, Qlik, and Excel. Everything integrated into MyGeotab through PowerBI Embedded is also made available to our customers for use with their preferred BI software.

Start building robust insights that drive informed business decisions – or let us craft them for you with our expertise and experience.
